### **COLLEGE PROFILE**

*The Gossaigaon College is the only Provincialised degree College imparting higher education to all the students of entire Gossaigaon civil sub-division since its establishment in 1971. The primary aim of the College is to provide higher education to the deprived and economically downtrodden section of the society and to empower them to get employment in various sectors and to develop good citizens.*

*The College is situated in a vast area 9.73 hectares of land purely in a rural set up with adequate infra structural facilities to run the existing courses. The beautifully grown sal trees (Shorea robusta) on its northern side immensely glorifies the campus and provides a peaceful and naturally conducive atmosphere for all teaching-learning processes. Since its humble beginning in 1971, the College is marching ahead against all odds and has reached the present position. In the beginning, altogether eight departments were introduced in the Arts Stream with more addition in the later stage. The college authority has also taken a bold initiative by introducing Science Streams having affiliation to Bodoland University. The hard work and strong determination of the College authority was able to bring the institution under deficit grant-in-aid system in 1978 and also obtained recognitions from the UGC under section 2(f) and 12(b) of the UGC Act.(1956) in the year 1990. Subsequently, the College has been brought under provincialised system by Government of Assam in 2005.*

*The post Graduate (PG) course in Geography and Economics has also been introduced at Gossaigaon College with intake capacity of twenty(20) student each subject per semester from the academic session 2017-18.*

*Free wifi access has been provided to the students, teachers and staffs to access e-resources in the college campus. Keeping in view of the growing demand of the society, automated functioning of college administration has been initiated using the ICT resources from the academic session 2017-18. The current admission has been set to go cashless. Apart from this, the college has been brought under CCTV surveillance system since 2018.*

*With its limited resources the college has ably faced two successive cycles of NAAC assessments, the first cycle being in the year 2004 and the second cycle in 2016. The indicators in both these assessments hint towards upliftment of quality education with modern facilities which the College is still striving for.*

*In order to achieve academic excellence, the College authority is endeavoring to tap the co-operative moods of all teaching and non-teaching staff of the College. During the pandemic of Covid -19 special online classes were taken for Major Students. Over the years, the College has achieved success in improving the academic atmosphere in the right perspective. Apart from imparting academic teaching to the students, the College also organizes remedial classes as well as coaching classes for entry into various like Civil Service, Banking, Assam Public Service Commission, Railways, TET etc. with the financial assistance received from UGC time to time.*

*Apart from this, students are also provided opportunities to participate in co-curricular activities through the NCC and NSS unit of the College. The NCC unit of the College is largely vibrant in all its activities including participation in Republic Day Parade, National Integration Camp, Mountaineering Camp etc. held every year in various places and also achieved success with many awards. Many cadets hailing from poor families have got placements in various defense services. As a whole, the College has been able to harness the good talents of the students in co-curricular activities which is reflected in the success stories achieved in various tournaments organized by Guahati University i.e. Inter College Football Tournament on several occasions.*

*The establishment of Gossaigaon College in the year 1971 was the realization of the hopes and aspirations of thousands of well wishers that aimed at providing higher education to the downtrodden people of this neglected backward area in the State of Assam. The institution has passed through many ups and downs during its journey from 1971. The last 49 years of struggle have bore fruits today which could be witnessed from the services of out going students rendered to the society. We have a long cherished vision to accomplish in the future and reiterates our resolve and determination to transform them into reality to enable the institution to achieve new heights of excellence.*
